

DG Global is a translation and localization company, providing global communication solutions to companies all over the world. Through linguistic excellence, high-quality project management and the most advanced translation technology, we will help you deliver your international communications efficiently and rapidly.

We offer a wide range of services:

- **Localization** of websites, software, computer games including audio and video localization
- **Technical translations** – electronic equipment, user manuals
- **Medical translations** – pharmaceutical translations, MD software, user guides, data sheets, regulatory documents, reports, informed consent forms
- **Business translations** – marketing translations, advertising campaigns, commercial translations and financial translations
- **Computer-related translations** – IT, software, applications, computer programs, video games, help files, documentation, user guides
- **Desk Top Publishing (DTP) Services** using InDesign, FrameMaker, FreeHand, PageMaker, ColdFusion, DreamWeaver, Broadvision/Interleaf, Corel, Quark and many more advanced tools

All of our translators are professional and experienced linguists who translate into their mother-tongue and are well aware of the cultural characteristics of the target audience.

DG Global offers translations in many areas of expertise and languages, such as *English, Hebrew, Arabic, Russian, French, Dutch, Italian, Spanish, Portuguese, German, Swedish, Danish, Norwegian, Chinese, Japanese* and many more.

Our clients include international companies such as [Google](#), [Microsoft](#), [Nokia](#), [Motorola](#), [P&G](#), [McDonald's](#), [HP](#) and many more.

We also provide translation and localization services to large translation companies such as [VistaTEC](#), [Verztec](#), [Translations.com](#), [Welocalize](#), and [Wordbank](#).
