

Dear Sir/Madam,

Let us introduce you our full range of foreign language communication services. Our translation agency **rois translations** specializes in translating European and Asian languages. All translations are performed by native speakers living in the corresponding target country who are also experts in the relevant subject area.

Leveraging technology to benefit you

CAT tools are deployed to facilitate the translation process – helping translators use and manage your terminology, ensure consistency and aid understanding. To make sure that the same terminology is used in the target language throughout a translation, we use translation memory systems such as TRADOS, together with internal and external checks.

Our satisfied customers include:

Advanced Instruments, Siemens, Nissan, Kia Motors, Elwema, Gima, Walter-Werkzeuge, Iluminis, Hever Translators Pool Ltd., Bandag, Locotech, Edimart, ETVIEW Ltd., Elbit Systems Ltd., Alup, Dualis, Matador, etc.

We translate the following languages:

Experienced, qualified interpreters can provide consecutive or simultaneous interpreting services for negotiations, meetings or international conferences.

We also localize websites and software, allowing you to launch your products successfully in a range of markets.

Allow us to meet your foreign language communication needs. Please do not hesitate to contact us for advice or for a quotation – we look forward to being of assistance.

Yours faithfully,
